Luke Rubino named President of Burgess-Norton

Amsted Industries announces that Luke Rubino has been named President of Burgess-Norton, succeeding Brett Vasseur who has retired.

Mr. Rubino brings diverse managerial experience with strong operations leadership and strategic development to his new role at Burgess-Norton. He began his Amsted career with Baltimore Aircoil Company in 2003 and held roles as Plant Manager and then VP of Operational Excellence before being named VP and Managing Director of BAC Asia Pacific in 2012. In 2017 Rubino joined ConMet, another Amsted Industries company, where he served as COO of Plastics and Manufacturing Strategy before joining Burgess-Norton last summer.

Since joining Burgess-Norton, he has been responsible for key strategic initiatives including: the powder metal growth strategy, launch of BN's manufacturing execution system and implementation of the 4 Disciplines of Execution (4DX).

About Burgess-Norton

Burgess-Norton is the largest global manufacturer of piston pins for internal combustion engines and compressors as well as a leading producer of precision powder metal components. Founded in 1903, and acquired by Amsted Industries in 1968, Burgess-Norton has produced millions of piston pins for leading international customers throughout the automotive and truck markets.

Burgess-Norton operates seven manufacturing facilities strategically located worldwide to shorten lead times and enhance supply chain efficiency.
